Trail Work Logs

Trail Captains & trail workers, please remember to keep track of your time spent out working on trails. We need to keep accurate logs of time spent out working on trails or groomers, or anything club related. This is SUPER important to have documented for the all important trail grant. ...It's SUPER easy... When you get done for the day marking trail, or whatever your doing, just shoot Rich a txt or fire off a email to him. Here's what you need to include:

- * Start time - Finish time
- * Club members working in your group
- * Location (approximate is ok)
- * Equipment used, ATV's, Chainsaws, Shovels, Axe, Weed-Wacker, Tractor, Pickup truck, Skid-Steer, Excavator, Back-hoe, ect. Be as specific as you can be, this helps us score more \$\$\$ in the trail grant.

Lastly, do it right away, right when you finish, or you'll forget... trust me...

Groomer Work Sessions

Groomers #2 & #3 (the Bully's) have been in the shop up on blocks for over a month now, we've got extensive updates, maintenance & repairs to do on both of them. The Bully doctor was in town 2 weeks ago, and gave them their fall physical. We still have a few evenings / afternoons of work to get them ready for the snow. We still have groomer #1 (the BR-180) and all 3 drags to service before we can hit the trails with them. We are always looking for extra hands to swing wrenches, if you can help us, contact Ron 622-8121

Last Meeting

Bonus points for everyone who showed up to last months meeting !!! If you weren't there, we had darn near a packed house if you were there you know how tasty the Marvin's wings are !!! We saw some new faces, and many faces we haven't seen in months. Always great to have a full house, with great interaction, and some new ideas to handle existing trail re-routes. We get a lot more problems solved faster when we have more club members at meetings.

...And we can't thank Marvin's enough for hosting our meetings there once a month !

Trail Talk

As of right now we have 4 culverts to install. We need to purchase culverts & asphalt millings or stone to backfill. We need big trailers to haul barrels on the bike path, equipment trailers to move groomers & drags when it's time. If you can help us out in anyway, please contact us.

...And when your out there, snap some pic's, shoot some video, sketch me a scene or send up some smoke signals.. I'll be sure to make you famous in next months NESS Express !!!

Many Thanks To: **Herman**

...for spending a good part of his day on the Rte #93 clean up, he was the lone gunman on that project, those of us who have done that in the past know what a job it is ! ...Keep them wheels turning Herman !

NEW TRAIL

A local, Clarence establishment, Aj's Bar & Grill has asked us if it would be possible to install a marked trail to their business. This was brought up at last months meeting. After some discussion and mapping out, we came to the conclusion that even though Aj's is located just outside the hollow in Clarence, on Rte #5 there are only a couple landowners and farmers to contact, and we could get a trail right to them. No bridges or culverts that we can see or know of to install. The only problem is we need a trail captain to take on this section of NEW trail. It's going to be a little work the first year, but we won't hang you out to dry by yourself. It's all open fields, with a few stop signs ! To make this happen, we are going to need someone to step up to be the trail captain for this new trail. If someone comes forward, it will be a great ! We will discuss this at this months meeting, but if no one wants to step up to the plate on this, it's not going to happen.
